BENEFITS

Advanced Sensor Dry
Your clothes will be dried perfectly with Advanced Sensor Dry. Humidity sensors are activated throughout each cycle to eliminate over drying, which can be harmful to fabrics. So, you enjoy optimal drying accuracy, along with exceptional care and performance.

Large Reversible Door
Everyones laundry is different. Thats why we designed a large reversible door to accommodate those tight spaces and side-by-side installations. You can easily change the direction of the door opening yourself to suit your requirements. Plus, the large door size also allows you to load and unload your dryer with ease.

Soft Touch Drum
With its raised circular texture, the Soft Touch Drum creates a gentle environment for delicate clothing by minimising prolonged contact clothing makes with the drum.

Refresh Cycle
The refresh cycle uses cool and hot air to refresh clothes that may have been in storage.
