RRP NZ \$3,149.00

Product Details

FEATURES

PowerBoost	Pause	Easy transition from ceramic cooktop	6.5kW rated input power
Hob2Hood	Perfect heat control	QuickCook Timer	Touch control
Easy cleaning	Residual heat indicator	Child safety device	

BENEFITS

Zero to Boil in no time

With PowerBoost, you can rapidly boil a pot of water or quickly heat up a frying pan. Spend less time waiting and more time creating your favourite meals.

Hold everything with our clever Pause function

We know that family life is full of distractions. That's why you'll appreciate our clever Pause function. Simply touch the Pause icon on your cooktop and all operating induction zones will drop to Keep Warm mode. When you're ready to go again, hit Pause again and settings will return to where you left off.

Transition to induction with ease

If switching to an induction cooktop is on your to-do list, you can upgrade with extra ease if your new induction cooktop shares the same rated input power as your old ceramic or electric cooktop. All you will need to do is get used to having instant control of your cooking.

Timed to perfection

Never over-cook or burn dinner again. Just set the cooking time and your cooktop will automatically turn the heat off for you.

Clear the air with Hob2Hood

With Hob2Hood technology, compatible rangehoods work seamlessly with your induction cooktop to clear your kitchen of cooking smells and steam. As you start cooking, the rangehood will automatically turn on then intuitively adjust the fan speed and airflow to match your cooking. How's that for hands-free convenience?
