BENEFITS

One compartment, any occasion
Our FlexSpace Convertible Compartment has a temperature range from -23C to +7C. With 5 predefined settings to meet your changing needs, you can choose to chill your drinks, freeze your meat or store your deli snacks with a touch of a button* *within 2 hours

SmartSplit Door Design
Optimally split doors give you more usable space in your fridge door. You can reach larger items in a quick and easy manner, saving you the need to open both doors every time.

FreshSeal™ Easy Glide Crispers
FreshSeal crispers with automatic humidity control give you the flexibility to look after your fruit and vegetables the right way. Designed with your comfort in mind, the easy glide crisper bins open effortlessly and provide easy access even when theyre full.

Filtered Ice and Water Dispenser
The dispenser provides fresh, filtered water as well as cubed or crushed ice at the touch of a button for all your family needs

Slide Back and Flip Up Shelves

The flexibility to slide back or flip up some of the fridge shelving makes fitting those extra tall items or large platters a piece of cake.

UltraChill

The UltraChill setting is a deep chill at -2C which keeps meat and fish fresh in optimum condition for longer without freezing which ensures the fresh texture is maximised and moisture loss is reduced compared to regular deep freezing. This saves your time defrosting meat and more time to enjoy with family.

Drinks Storage

Store your drinks at the ideal temperature every time by setting the drawer at 7C for perfectly chilled wine and champagne, or at 0C for ice cold drinks.

Snacks Storage

Store your cold meats and cheese at 3C, the ideal temperature for fresh family favourites to be ready on the go.

SnackZone

The SnackZone is the ideal compartment for family favourites. The optimal height for even the smallest family members to reach, ensuring healthy snacks are always available.

DualCooling

With the DualCooling system, the fridge and freezer compartments work independently to maintain the optimum temperature and humidity to keep foods fresh or frozen.
